**Only The Best Players Will Prevail
In Streetball Now Available For Android™**

Join The Millions Of Fans Who Took It To The Streets Already!

With close to two million downloads from Apple's App Store, Streetball is now available on Google's Android™ Market.

In Streetball, players have the chance to stand off against others in the toughest environment, on the streets! The game itself features three modes of play: Two-on-Two, First-to-21 and H.O.R.S.E. In both Two-on-Two and First-to-21, two teams battle in either a timed game or a no-holds first to 21 wins. In H.O.R.S.E players match shots against the AI by tracing shapes with their finger in order to duplicate the opponents last shot. To inexperienced players, Streetball also comes with an on-court tutorial to practice and prepare them for the action on the streets, and with its intuitive controls and accuracy meter, this game is fun, addicting and a keeper on everyone's phone!

Streetball is available for download on the Android™ Market here:
