**RealScorz Hockey For Android™ & iOS® Is The  
Ultimate NHL™ Fantasy Companion & Game**

Available For FREE In Limited-Time Promotion Ending January 7<sup>th</sup>, 2012

The hockey season is well underway, and what better way to celebrate the world's fastest sport than with a game that captures the imagination of fans of the sport and gamers alike. Both will rejoice as independent developer 'RealScorz' is offering their highly unique and fan-favorite game, RealScorz Hockey, for FREE, in a limited time promotion in conjunction with the NHL's annual Winter Classic, from now through January 7<sup>th</sup> 2012. Available for the Apple iPhone® (& Apple iPod touch®) in addition to the Android™, this game is the perfect 'puck in your pocket' for anyone interested in hockey - casual players, as well as hardcore NHL™ fantasy players.

RealScorz Hockey is a tribute to one of the world's most thrilling sports. Designed to add an extra element to the fun and excitement of hockey, RealScorz gives you a chance to pick the five players from your favorite team who you think will tally goals and pick up assists every game they play all season long. If they score, so do you! It's that simple! Before the beginning of each game, just pick the 5 players in order. During the game you get points whenever your player is successful. The higher those players are in your order, the more points you achieve.

RealScorz Hockey features a virtual scorecard that will be automatically updated after each game, allowing you to check and compare yourself to other fans of your team. With extensive breakdowns including monthly stats or stats covering an entire season, this gem of an app-gone-game will be your best friend throughout the NHL™ season.

RealScorz Hockey is guaranteed to enhance the experience of rooting for your team, pulling for your players and interacting with fellow fans, and even if your favorite team is not a winner this season, you will be with this game on your handheld.
