'Star Marine: Infinite Ammo' for the Apple iPhone® & Apple iPod touch® has been approved by Apple® for release on the App Store! Developed by GlitchSoft, renowned for Destructopus!, 'Star Marine: Infinite Ammo' is a side-scroller that is inspired by, and features comparable gameplay to iconic titles like Contra, Rapid Reload, and Metal Slug! Set in the distant future and in the darkest corner of the universe, a tyrant race captures and oppresses all living creatures within their realm. One-by-one the race acquires control over all – that is, until they cross paths with one man. He goes by the name of Arc, and he is a battle hardened drifter with no set course. Untamable, unforgiving, and unstoppable, he will bring apocalypse to the evil race in a fiery charge rampant with bullets and explosions

Completely original and designed by GlitchSoft specifically for touch devices, this awesome playing game features a familiar dual stick control schematic with a single button to activate Arc's propulsion pack. The controls are extremely responsive and allow Arc to run, dash, jump, hover, hang, climb, and prone while delivering a continuous rain of bullets upon his enemies! Get ready for some amazingly rapid and classic Run n Gun action as 'Star Marine: Infinite Ammo' will be released shortly.

The game features over 10 unique and massive bosses, 7 powerful weapons, a full set of marine upgrades, 3 separate gameplay modes, 30+ Game Centre Achievements, and over 100+ in game challenges. Enough to keep any fan of the genre battling for hours!
