'Star Marine: Infinite Ammo' Has Finally Hit The App Store

The Battle For Freedom Starts NOW!

Indie developer GlitchSoft has finally released its highly anticipated 'Star Marine: Infinite Ammo' action-shooter to the Apple iTunes™ App Store! This adrenaline packed Run n' Gun side-scroller has already received glowing previews and incredible media attention prior to its official release, and the wait is finally over!

Available for the Apple iPhone® and Apple iPod touch®, this masterpiece of a game from the developers of Destructopus! & Bar Star™ is destined to become legendary as the first well-executed Run n' Gun title for the iOS platform. Built from the ground up for touch gaming devices, the game is similar in play to classic titles like Contra, Rapid Reload, and Metal Slug.

In 'Star Marine: Infinite Ammo' you play as Arc, a battle hardened drifter captured by an alien race in the depths of space. You however, have other plans, and being a hardcore, highly skilled Star Marine, it is your task to take them all down in a cloud of bullets and mayhem.

Included in the download is 10 unique and massive bosses (one for each level!), 7 powerful weapons, a full set of marine upgrades, 3 separate gameplay modes including Boss Rush & Survival Mode, 30+ Game Centre Achievements, and over 100+ in game challenges through 4 unique worlds.

'Star Marine: Infinite Ammo' is available on the App Store from here:
