**Cocoto Magic Circus Now Available On  
Apple iPhone™ & Apple iPod touch®**

Handheld Version Of Cute, Cartoonish, And Atmospheric Nintendo Wii™ Shooter!

With an already successful launch on market leading game console, Cocoto and his friends are ready to wreck mayhem and havoc on the Apple iPhone™ and Apple iPod touch®. The games predecessor, Cocoto Kart Online, has already achieved the impressive milestone of having reached more than 1 million players!

The story goes: A mysterious and evil clown has kidnapped Pixie, the pretty fairy. It is your mission to aid Cocoto and his friends in a pursuit to save Pixie, but the rescue team has found itself trapped inside an evil circus! Shock and horror! To be successful in your quest you will have to overcome many obstacles and prove yourself to be a true sharp shooter. Using your trusty dart gun you must take on the role of Cototo, Shiny, Neuro or Baggy, travelling across 5 hilarious and challenging theme rides including Abyss, Volcano, Atlantis, Jungle and Heaven.

To progress in Cocoto Magic Circus you must use your finger as a gun and shoot the moving enemies, explode the green balloons which offer bonuses like additional time, explosions and slow-motion, but also take precautions and avoid the red balloons which shake the screen or accelerate the clock. The game offers the same visually stunning 3D environments, including the familiar animated characters, bosses and backgrounds as introduced in the console version.

Unlike other similar games of this genre, Cocoto Magic Circus offers real-time online multiplayer matches where players from the entire world can participate
